Technology, transgenic 178, 274–278
Telozol® 134
Teratocarcinoma 9, 57
Tetracycline analogue 43, 45
Tetraploidy *see* Polyploidy
Thymidine kinase 146
Thyrotrophic hormone 132
Tilapia, Nile 216, 222, 223
Topoisomerase II 91
Transgene 23–24, 37–56, 124, 149
 detection of 37–56, 90–91
 integration, in cattle 182
 integration, in pigs 137
 ‘rescue’ 49
 sheep metallothionein 1a sheep
 growth hormone (oMt1a-oGH)
 231–233, 236, 245, 248
 ‘switches’ 42–47, 51
Transgene expression 37–56, 145, 146
 in cattle 182
 in mammary gland 7, 198
 in milk 185
 ‘position effects’ 148
Transgenesis 9–12, 87–95
 avian 117–118
 biological effects 218–219
 in fish 209–224
 in poultry 97–116
 pleiotropic effects 219–221, 258,
 269
 using primordial germ cells
 105–106
‘Transgenic’, definition of 2
Transgenic Research (journal) 3
Transposable element (TcE) 24–25
 Minos 25
 structural and functional features
 25–26
 vector system 26–32
Transposon 31–32
 salmonid 25–27
 Sleeping Beauty (SB) 26–32
Tricarboxylic acid (TCA) 172
Triploidy *see* Polyploidy
Trout, rainbow (*Oncorhynchus mykiss*)
 21, 22, 212–216, 219, 220, 221,
 223
Turkey (*Meleagris gallopavo*) 98,
 102–104, 119, 123, 124
Twinning, in cattle 74

US Federal Drug Agency 50

Vaccine, genetic, for fish 33
Veal 261
Vertebrate species, transgenic 3, 26–32,
 87
Viral diarrhoea, bovine 188
Virginia–Maryland Regional College of
 Veterinary Medicine 181
Virus, infectious haematopoietic
 necrosis 33

Walleye 21, 22
Western blot analysis 90, 182
Whey protein 177, 193, 194, 197–198
Wool production 7, 12, 159–160
 in Australia 159

Xenopus laevis 88
Xenopus spp. 2, 124
Xenotransplantation 4, 74–76, 254,
 270
Xylazine 134

Yeast artificial chromosome (YAC) 50

Zebrafish 21, 27–32, 89
Zinc 145, 146, 148–150, 152–154,
 162–165, 232, 233
Zygote production
 in cattle 179–180, 186
 in mice 245–247
